PROFESSIONAL PROFILE

Full-stack software developer specialized in designing and building web and mobile applications. Combines performance and innovation to deliver efficient, scalable solutions, with hands-on experience across React/Next.js front ends, Express.js/Supabase back ends, Flutter mobile development, and workflow automation.

PROFESSIONAL EXPERIENCE

Programmer | Web Development & Automation
ASSORS • Rue Liberté, Casablanca | 12/2025 - 06/2026

- Developed and maintained web applications using Next.js and Express.js, delivering high-performance and scalable solutions.
- Built and customized WordPress websites for clients, focusing on design, functionality, and SEO optimization.
- Designed and implemented automation workflows using n8n, streamlining business processes and reducing manual tasks.
- Built AI-powered chatbots using RAG (Retrieval-Augmented Generation) pipelines and LLM APIs (Claude, Gemini, ChatGPT), integrating external services and automation logic to enhance user experiences.
- Diagnosed and resolved recurring performance and integration issues in Express.js APIs and WordPress sites, improving load times and site stability for clients.

Full-Stack Developer | Web Development
TYTHON • Bd Zerktouni, Casablanca | 10/2024 - 12/2025

- Worked on several projects, including France Ceramic, Assurisma, Africabis, and App All, using WordPress, React, and Express.js.
- Developed and optimized front-end applications with React, Redux, and TypeScript, ensuring a smooth user experience.
- Designed and maintained scalable back-end solutions with Express.js and Supabase, implementing PostgreSQL triggers to automate and improve processes.
- Provided innovative solutions to complex problems and collaborated on front-end and back-end development.
- Identified and fixed data synchronization and state-management bugs across React/Redux front ends and Supabase back ends, refining PostgreSQL triggers to restore data consistency.

Full-Stack Developer | Mobile Development (Intern)
TYTHON • Bd Zerktouni, Casablanca | 03/2024 - 10/2024

- Actively participated in the development of Valet Club, strengthening skills in project management and software development.
- Collaborated closely with the team to design and manage applications using FlutterFlow, Flutter, and Supabase.
- Integrated geolocation features and real-time data management, demonstrating an ability to solve complex problems in a team setting.
- Troubleshot and resolved geolocation accuracy and real-time sync issues in the Flutter/Supabase app, improving the reliability of location-based features.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, PHP, Dart
- **Backend & Databases:** Firebase, Supabase, MySQL, PostgreSQL, MongoDB
- **Frameworks & Libraries:** React.js, Next.js, Laravel, Express.js, Bootstrap, Tailwind CSS
- **Mobile Development:** Flutter, FlutterFlow
- **Version Control:** Git
- **API Development:** RESTful APIs
- **AI & LLM:** LLM API Integration (Claude, Gemini, ChatGPT), RAG (Retrieval-Augmented Generation), AI Agents
- **Automation & Chatbots:** n8n, Workflow Automation, Chatbot Development
- **Project Management & Tools:** Jira, Trello, ClickUp, WordPress

EDUCATION

Professional Bachelor's Degree, Web & Mobile Application Development
EST (École Supérieure de Technologies), Casablanca • 07/2026

DTS, Full-Stack Web Development
ISTA ELHANK, Casablanca • 07/2024

Baccalaureate, Physical and Chemical Sciences
Hossin Bno Ali, Casablanca • 06/2022

CERTIFICATIONS

HCLSoftware Certified Foundation Developer – Volt MX 9.5
